**21 July 2021**

### **MARINE ADVISORY: 08/2021**

(This Marine Advisory supplements Marine Advisories 04/2019, 12/2019, 18/2020)

### **SUBJECT: Advisory on General License 40 Authorizing Certain Transactions Involving the Exportation or Reexportation of Liquefied Petroleum Gas to Venezuela**

**Ref: (a) [Marine Advisory 04/2019](#)**

**(b) [Marine Advisory 12/2019](#)**

**(b) [Marine Advisory 18/2020](#)**

On July 12, 2021, the Office of Foreign Assets Control (“OFAC”) issued General License 40 authorizing all transactions and activities related to the exportation or reexportation of liquefied petroleum gas to Venezuela, involving the Government of Venezuela, Petroleos de Venezuela, S.A. (“PdVSA”) or any entity in which PdVSA owns directly or indirectly, a 50 percent or greater interest, until **July 8, 2022**.

The scope of General License 40 is limited to the exportation or reexportation of liquefied petroleum gas *to* Venezuela, and expressly prohibits transactions where liquefied petroleum products will be received by the Government of Venezuela or PdVSA in exchange for products which are not authorized by General license.

Additionally, Frequently Asked Question 914 published by OFAC clarifies that non-U.S. persons will not risk exposure to the U.S. sanctions for engaging in activities or facilitating transactions or payments for such activities that are authorized to U.S. persons under General License 40.

Finally, Frequently Asked Question 915 provides a definition of “liquefied petroleum gas” as used in General License 40. Any voyages involving export and reexport of products outside the scope of General License 40 may present sanction risks.
